WORK EXPERIENCE

Web developer
Freelance

01/2022 - Present

Achievements/Tasks

- Leveraged advanced JavaScript libraries and APIs to build 20+ interactive web applications.
- Applied front-end technologies such as React and AJAX to integrate with back-end services, resulting in real-time data-driven updates to the website and an improved user experience, leading to a 20% spike in traffic.
- Employed Redux for state management, resulting in a 25% reduction in code complexity.
- Implemented cross-browser compatibility at the code level, resulting in a 20% increase in user satisfaction.
- Utilized SEO (Search Engine Optimization) best practices and techniques to optimize web applications for maximum speed and scalability and improve website performance.

Web Developer
JD Techcom

10/2021 - 04/2022

Achievements/Tasks

- Debugged and troubleshooted web applications, identifying and addressing performance bottlenecks, resulting in a 10% reduction in bug-related delays.
- Created and maintained RESTful APIs, enabling seamless communication between web applications and third-party services.
- Applied front-end technologies such as React and AJAX to integrate with back-end services, resulting in real-time data-driven updates to the website and an improved user experience, leading to a 10% spike in traffic.
- Employed version control systems such as Git to collaborate on projects and manage code.

EDUCATION

Web Development
FreeCodeCamp

M.S. Engineering
TU Berlin

SKILLS (TOOLS AND SOFTWARE)

HTML5   CSS3   JavaScript   TypeScript
